

WEEKLY E-LETTER --

July 18, 2017

Grace and Peace to you this week!

I hope you are feeling blessed and cared for by God and by your faith community here at Wilmot.

The major painting work is moving along on Carleton Street, soon we will see the fruits of that work. This is made possible through your contributions to The Capitol Projects Fund, and the good management of our resources by the Trustees.

It must be a great year for strawberries. They are abundant, affordable and delicious! Not only that, but they are actually good for you!

The four clergy of Downtown United, and our musicians, are working together for these ten weeks to plan and deliver worship and Vacation Bible School. It is always a good change to work with others, and that included the faithful teams of lay workers who make the smooth running of these events possible. Thanks to everyone.

Please note that the church office has summer hours and check before you come down.

How to Live

How should one live?

Live

Welcoming

to all.
