

WEEKLY E-LETTER ---

June 13, 2017

Grace and Peace to you this day!

I'd say summer is finally here, judging by the heat! Please be mindful of anyone you know who might not have respite from these extreme temperatures, as it can be a deadly situation. We need to look out for one another.

It's a busy week. The UCW shared a wonderful dinner together last evening and Worship Committee meets today. The clergy teams from St. Paul's and Wilmot are meeting to plan for our shared summer worship which begins in July at St. Paul's.

On Thursday, Stewardship & Finance meet to talk about our planned stewardship program for September. Saturday, the Spiritual Circle group meets at noon. Please think about joining us in the parlour for a shared lunch and some time for deepening your spiritual life.

Sunday is our picnic in Odell Park - remember your chair, sun hat and sun screen. We'll look after the rest!

Did you hear about the Canada 150 video called 'Eau Canada'? It features Canada's heritage rivers and celebrates our many beautiful Canadian rivers.

Here's the u tube link:

<https://www.youtube.com/watch?v=fQbRyT-1sVM&feature=youtu.be>

It is a fantastic celebration. I only learned recently that Canada has almost 25% of the world's fresh water. How blessed we are and how significant a responsibility we have!

At Maritime Conference annual meeting a few weeks ago, the Youth Forum asked the Court to adopt a proposal expressing support for proposed name restoration of the Saint John River back to its original indigenous name Wolastoq. This was agreed to and adopted.

Looking forward to Sunday,

May God Bless and Keep you,

Rose~Hannah
